**Webinar on Enhancing Data Utilization and Effective DHIS2 Implementation**

**Tuesday 11 July, 14:00 – 15:30 (CEST)**

Join us for an informative webinar that aims to explore strategies to improve data utilization and provide practical resources for effective implementation of the DHIS2 at various administrative levels. This webinar will delve into the experiences of Rwanda and Tanzania, showcasing their successful data use initiatives, achievements, and the challenges they have encountered over the past two years.

Attendees will gain valuable insights into practical approaches for improving data utilization, guidelines for effective DHIS2 implementation, and discover actionable strategies to enhance data utilization in your own healthcare systems from real-world experiences.
