HEALTH DATA COLLABORATIVE

DATA FOR HEALTH AND SUSTAINABLE DEVELOPMENT

OBJECTIFS DE DÉVELOPPEMENT DURABLE

Retreat Recommendations

1. Ensure the health sub-sector better ownership of the results of national and international surveys on health and related sectors
2. Promote the alignment of resources and funding by CHDC members and focal points
3. Bring together once a month the members of each Technical working group
4. Support the dissemination of the SCORE package
5. Facilitate the development of a single integrated national DHIS2 platform in Cameroon
6. Assess the availability and use of harmonized data collection tools

Retreat Resolutions

1. Integrate the National Institute of Statistics (INS) into the coordinating committee of the Cameroon Health Data Collaborative (CHDC)
2. CHDC focal points commit to share health data, reports produced by their respective organizations / departments
3. CHDC Focal Points and Members Commit to Meet in at least once every two months
4. The expected deliverables of the work plan 2018/2019 of the Cameroon Health Data Collaborative are adopted

“Today’s investments in country health information systems will lead to a better tomorrow for billions of people.” Jim Yon Kim
