**RE: INVITATION TO A WORKSHOP TO DEVELOP TOOLS FOR
THE HARMONIZED HEALTH FACILITY ASSESSMENT**

The Ministry of Health is committed to implement Universal Health Coverage (UHC) and ensure that health care is accessible to all Kenyans.

Availability of comprehensive information on service availability and readiness of facilities to offer quality health services is key in informing UHC baselines and identifying existing gaps that can compromise provision of affordable quality healthcare.

For this reason, the Ministry together with development partners and the counties represented by Council of Governors has planned to carry out a Harmonized Health Facility Assessment (HHFA). This assessment will bridge the gaps previously addressed by the Service Availability and Readiness Assessment Mapping (SARAM) and Service Provision Assessment (SPA) among other surveys. This follows closely on the Health Data Collaborative (HDC) principle of harmonizing technical and financial resources in the implementation of Health Information initiatives.

This is therefore to invite you for workshops to harmonize assessment tools scheduled from **20th - 24th August 2018 and 3rd - 7th September, 2018** at venues to be communicated. USAID shall take care of the necessary travel and accommodation expenses.

Please send confirmations or clarifications through meunitmoh@gmail.com.

Peter K. Tum, OGW
PRINCIPAL SECRETARY
