

## TANZANIA HEALTH DATA COLLABORATIVE LOGFRAME

<b>Country context</b>	The Tanzania development Vision 2025 (National Development Plan), The National Health Policy and the Health Sector Strategic Plan, the Monitoring and Evaluation Strengthening Initiative, and the Digital Health Roadmap all put emphasis on the need for strong M&E systems including data collection and reporting systems.
	There is a strong commitment from MoH and partners to revitalize the M&E working group to ensure implementation of M&E/HIS priorities at country level.
<b>Key HIS/M&amp;E documents</b>	<ul style="list-style-type: none"> <li>• The Tanzania Development Vision 2025</li> <li>• The National Health Policy (2007)</li> <li>• Health Sector Strategic Plan (2015-2020)</li> <li>• M&amp;E SI II (2015-2020)</li> <li>• Tanzania Digital Health Investment Roadmap (2017-2023)</li> <li>• Data dissemination and use strategy (draft)</li> <li>• e-health strategy 2013-2018</li> <li>• HIS policy guidelines (draft)</li> <li>• National Road Map Strategic Plan To Improve Reproductive, Maternal, Newborn, Child &amp; Adolescent Health In Tanzania</li> <li>• Communiqué and M&amp;E priorities (to be signed by Gov)</li> </ul>

### HDC ENGAGEMENT

<b>Type of engagement</b>	Strategic request for collective action to rally all stakeholders towards supporting a common M&E priorities for collective action
<b>Preparatory planning for HDC launch</b>	<ul style="list-style-type: none"> <li>• February 2017: in-country meeting preparation for the launch of the Tanzania Health Data Collaborative</li> <li>• March 2017: Request from Ministry of Health to engage with the HDC</li> <li>• June 2017: Preparatory TC with partners to prepare the THDC launch</li> <li>• July 2017: Draft concept note and agenda for THDC launch shared with partners</li> <li>• August 2017: Secretariat to prepare the launch established</li> </ul> <p><b>THDC launched 11-13th September</b></p>
<b>M&amp;E/HIS Priorities</b>	<ol style="list-style-type: none"> <li>1. Addressing fragmentation of M&amp;E and data systems</li> <li>2. Alignment of indicators and data collection processes</li> <li>3. Alignment of health facility assessments and surveys</li> <li>4. Joint and aligned investment in digital health information systems</li> <li>5. Strengthening capacity for analysis and use of data</li> <li>6. Dissemination and access</li> </ol>

### OUTPUTS & INDICATORS ( HDC logical framework for monitoring progress and performance )

<b>Output 1:</b>	<b>A strong M&amp;E governance and coordination mechanism is in place</b>
<b>Output indicators</b>	<ol style="list-style-type: none"> <li>1.1. Assessed and identified national M&amp;E priorities, linked to national health sector monitoring (linked to HDC log-frame indicator 1.2)</li> <li>1.2 National HIS governance and coordination mechanism in place (linked to HDC log-frame indicator 6.3 )</li> <li>1.3. A common national investment framework for M&amp;E is in place and used by financial partners and government as the basis for joint actions/investment (linked to global HDC log-frame indicator 1.4)</li> </ol>
<b>Output2:</b>	<b>Indicators of programme- specific strategic plans aligned with (HSSP IV) and data collection efforts harmonized</b>
<b>Output indicators</b>	2.1.Key indicators for disease specific programs (Malaria, HIV, TB, IVD, NCD, NTD etc) included in the HSSP IV M&E framework (linked to global HDC log-frame indicator 1.1 )
<b>Output 3:</b>	<b>Health facility assessments and surveys and accreditation systems aligned</b>
<b>Output indicators</b>	<ol style="list-style-type: none"> <li>3.1 Joint investment plan for facility survey of readiness, adherence to quality and patient satisfaction (linked to global HDC log-frame indicator 2.7)</li> <li>3.2.Methodologies to assess and improve quality of care (SARA, SPA, SDI, Star Rating Assessments, BRN+SafeCare) harmonized (linked to global HDC log-frame indicator 2.9)</li> </ol>
<b>Output 4:</b>	<b>Improved compatibility and exchange of health data between different IT systems</b>
<b>Output indicators</b>	<ol style="list-style-type: none"> <li>4. 1. Joint investment plan for digital health systems and technologies (linked to HDC log-frame indicator 6.4)</li> <li>4.2 Disease surveillance integrated into RHIS (linked to global HDC log-frame indicator 2.4 )</li> </ol>
<b>Output 5:</b>	<b>Access to and capacity for analysis and use at all levels and all key players increased</b>
<b>Output indicators</b>	5.1. Coordinated support in analytical capacity building at national and subnational (linked to global HDC log-frame indicator 7.4)
<b>Output 6:</b>	<b>Improved access and increased use of country health data and statistics.</b>
<b>Output indicators</b>	6.1. One platform for sharing and disseminating all health data available (linked to global HDC log-frame indicator 8.1)
