

MAKING NUMBERS COUNT

USAID's Health Finance and Governance project hosted three webinars focused on health expenditure tracking, in collaboration with the Health Financing sub-group of the Health Data Collaborative's technical working group on Health Systems Monitoring.

-The first webinar focused on the use of [health expenditure data for policy reform](#).

-The second webinar discussed the factors involved in [selecting the right tool to estimate health expenditure](#) in a given country context.

-The third and final webinar focused on lessons learned in [streamlining the production of health expenditure estimates](#).
